Mobility4EU is a Coordination and Support Action funded in by the European Commission under Horizon2020. This poster is produced under the contract 690732.

THE EUROPEAN TRANSPORT AND MOBILITY FORUM EMPLOYS PARTICIPATORY PROCESSES TO EXPLORE HOW TO EFFICIENTLY INCLUDE THE USER-PERSPECTIVE AND HOW TO CREATE ADDED VALUE BY TRANSFERRING KNOWLEDGE AND BUILDING NEW CollaborATIONS ACROSS MODES AND TOPICS. Its ultimate goal is building an integrated, sustainable and user-centric transport system for passengers and freight.

MEMBERS

Build your profile
Introduce yourself and your topics of interest and find others in the network.

Blog
Contribute with your experience reports/posts, best practices.

Polls and surveys
Vote and support specific topics, actions, ideas.

News & Events
Participate to virtual or real-life meetings and events with the Forum members.

ONLINE PLATFORM

Explore the community and browse working groups and thematic tables, engage and even initiate new topics to discuss your issues, ideas or research. Share relevant information and multimedia with the rest of the community.

Integrate user perspectives into the network and into all transport aspects.

Build cross-modal links in transport of people and goods and explore opportunities and benefits of combining the two.

Discuss horizontal topics beyond transport: energy, data, services, automation.

Initiate new R&D projects and initiatives.

Mobility4EU is a Coordination and Support Action funded by the European Commission under Horizon2020. This poster is produced under the contract 690732.

The European Transport and Mobility Forum brings together all relevant stakeholders of transport of passengers and freight and of sectors beyond the traditional transport industry as, e.g. smart systems, energy, data and service (from academia, industry, policy, users, operators etc.).

Its ultimate goal is building an integrated, sustainable and user-centric transport system for passengers and freight.

MEMBERS
The European Transport and Mobility Forum employs participatory processes to explore how to efficiently include the user-perspective and how to create added value by transferring knowledge and building new collaborations across modes and topics.

Its ultimate goal is building an integrated, sustainable and user-centric transport system for passengers and freight.
